

Streamline Lease Accounting Maintenance

Simple, scalable software for GASB lease accounting

The new lease standard has introduced a tremendous amount of work. Your software solution should alleviate your stress. Implement seamlessly with LeaseCrunch, the easiest-to-use lease accounting software available.

EASY TO USE

LeaseCrunch simplifies the complex with worry-free calculations and step-by-step wizards. Easily generate journal entries, quantitative footnote disclosures, a full amortization schedule, and more with the push of a button.

SOLUTIONS FOR TODAY AND BEYOND

The complexity of the new standard places significant demands on your team, whether you have 2 leases or 200. LeaseCrunch will be there to grow alongside your organization.

SUPERIOR TO SPREADSHEETS

Spreadsheets are fragile and cumbersome, increasing the likelihood of a material misstatement. LeaseCrunch offers version control and access control to mitigate errors and ensure that only those individuals with the right authority can make updates—saving time and money.

“ I close my eyes and this is what I picture when it comes to lease accounting software... extremely intuitive.” - Liz, Top 20 CPA Firm

Liz, Top 20 CPA Firm

“ This is a great application, easy to use. You just relieved a lot of my stress.

Brandon, Regional CPA Firm

LeaseCrunch protects data privacy through a combination of Microsoft Azure, added encryption keys, and a control environment certified through our [SOC 1® Type II](#) and [SOC 2® Type II](#) reports. LeaseCrunch supports lease accounting standards GASB 87, GASB 96, ASC 842, and IFRS 16.
